

Foreign Exchange Solution For Private Clients

The Bespoke fx online platform is a simple and cost-effective solution for making currency transfers. Often, an individual will pay extremely high transaction fees, experience poor customer service when sending a small or large currency payment and receive uncompetitive exchange rates.

The Bespokefx team combines market-leading knowledge with the highest professionalism to create an efficient

platform for you to purchase and administer your foreign exchange outgoings.

Whether you need to pay international school fees, settle monthly mortgage payments for a second home abroad, pay maintenance costs for an asset that is based outside of the UK or invest in a one-off purchase that is payable in another currency, our seamless online solution can help you.

Key features of our solution:

- Clear and easy navigation
- No set-up cost
- Competitive and transparent exchange rates and transfer fees
- Access to the platform via your internet browser, 24 hours a day
- Ability to save and store the details of your frequent beneficiaries
- Monitor the progress and status of your payments
- Funds kept in secure client-segregated bank accounts
- Onshore and offshore bank accounts available
- Direct line to the Bespokefx Team
